PROCEEDINGS OF THE SECTION OF SCIENCES

VOLUME XXVI
— (Nos. 1—10) —

PUBLISHED BY
"KONINKLIJKE AKADEMIE VAN WETENSCHAPPEN", AMSTERDAM
1923

(Translated from: „Verslag van de Gewone Vergaderingen der Wis- en Natuurkundige Afdeeling" Vols. XXXI and XXXII).

CONTENTS.

Proceedings Nos. 1 and 2 1

,, Nos. 3 and 4 123

,, Nos. 5 and 6 315

,, Nos. 7 and 8 497

,, Nos. 9 and 10 665

CONTENTS.

ACCESSORY MINERAL (On the occurrence of diamond as an) in olivine and anorthite bearing bombs, occurring in basaltic lava, ejected by the volcano Gunung Ruang (Sangir — Archipelago north of Celebes). 510.

ACCOMMODATION MUSCLE (Determination of the power of the). 763.

ACETONEMIA (Researches on the metabolism of milch-cows suffering from). 666.

ADDITION of water (Researches on the) to ethylene and propylene. (Preliminary communication). 321.

ADSORPTIVE POWER (Researches on the nature of the so-called) of finely-divided carbon. I. The binding of water by animal carbon. 548.

ALCOHOL (The light oxidation of). III. The photocatalytic influence of some series of ketones on the light oxidation of ethyl alcohol. 443.

AMPHIBIAN LARVAE (On the determination of polarity in the epidermal ciliated cell. After experiments on). 702.

Anatomy. C. VAN GELDEREN: "On the development of the shoulder-girdle and episternum in reptiles". 15.

— KYOZO KUDO: "Contributions to the knowledge of the brain of bony fishes". 65.

— C. U. ARIËNS KAPPERS: "The ontogenetic development of the corpus striatum in birds and a comparison with mammals and man". 135.

— O. H. DIJKSTRA: "The development of the shoulder-blade in man". 297.

— J. W. VAN WIJHE: "Thymus, spiracular sense organ and fenestra vestibuli (ovalis) in a 63 m.m. long embryo of Heptanchus cinereus". 727.

— J. I. HUNTER: "The forebrain of Apteryx australis". 807.

ANTAGONISM (Further researches on the) between citrate and calcium salt in biochemical processes, examined by the aid of substituted citrates. (First comm.). 542.

Anthropology. L. BOLK: "The menarche in Dutch women and its precipitated appearance in the youngest generation". 650.

APOGAMY (Cytological investigations on) in some elementary species of Erophila verna. 349.

APTERYX AUSTRALIS (The forebrain of). 807.

ARC, INFRALATERAL (A non-tangent). 712.

ARGON (A relation between the spectra of ionized potassium and). (Second comm.). 498.

ARIËNS KAPPERS (C. U.) v. KAPPERS (C. U. ARIËNS).

Astronomy. E. HERTZSPRUNG: "On the magnitude equation of OSTHOFF's estimates of star-colours". 12.

ATOMIC STRUCTURE (Nitrogen fixation by means of the cyanide-process and). 480.

BACKER (H. J.). The second dissociation constant of sulphoacetic and α-sulphopropionic acids. 83.

— and J. H. DE BOER. n. α-Sulfobutyric acid and its optically active components. 79.

BACTERIA (The splitting of lipoids by). I. 436.

BACTÉRIES VIVANTES (Culture du bactériophage sans intervention de). 486.

Bacteriology. P. C. FLU: "On the bacteriophage and the self-purification of water". 116.

— G. M. KRAAY and L. K. WOLFF: "The splitting of lipoids by bacteria". I. 436.

— F. D'HERELLE: "Culture du bactériophage sans intervention de bactéries vivantes". 486.

BACTERIOPHAGE (On the) and the self-purification of water. 116.

BACTÉRIOPHAGE (Culture du) sans intervention de bactéries vivantes. 486.

BALANCE-PRESSURE (The influence of rotation on the sensitiveness and the accuracy of a). 805.

BANNIER (J. P.). Cytological investigations on apogamy in some elementary species of Erophila verna. 349.

BARENNE (J. G. DUSSER DE) and J. B. ZWAARDEMAKER. On the influence of the vagi on the frequency of the action currents of the diaphragm during its respiratory movements. 771.

BEAUFORT (L. F. DE) and H. A. BROUWER. On tertiary marine deposits with fossil fishes from South Celebes. 159.

BELINFANTE (M. J.). A generalisation of MERTENS' theorem. 203.

— On a generalisation of TAUBER's theorem concerning power series. 216.

— On power series of the form: $x^{p_0} - x^{p_1} + x^{p_2} - \ldots$ 456.

BERGIUS' method (Hydrogenation of paraffin by the). 226.

BIEZENO (C. B.). An application of the theory of integral equations on the determination of the elastic curve of a beam, elastically supported on its whole length. 237.

BILINEARFORMEN (Ueber Invarianten von). 801.

Biochemistry. J. R. KATZ: "Further researches on the antagonism between citrate and calcium salt in biochemical processes, examined by the aid of substituted citrates". I. 542.

— B. SJOLLEMA and Miss J. E. VAN DER ZANDE: "Researches on the metabolism of milch-cows suffering from acetonemia". 666.

BIRDS (The ontogenetic development of the corpus striatum in) and a comparison with mammals and man. 135.

BIRD'S HEAD („Vogelkop") (Geological data derived from the region of the) of New-Guinea. 274.

BOER (J. H. DE) and H. J. BACKER. n. α-Sulfobutyric acid and its optically active components. 79.

BÖESEKEN (J.). The valency of boron. 97.

BOLK (L.). The menarche in Dutch women and its precipitated appearance in the youngest generation. 650.

BOMBS (On the occurrence of diamond as an accessory mineral in olivine and anorthite bearing), occurring in basaltic lava, ejected by the volcano Gunung Ruang (Sangir-Archipelago north of Celebes). 510.

BONY FISHES (Contributions to the knowledge of the brain of). 65.

BORIC ACID COMPOUNDS (Provisional communication on) of some organic substances containing more than one hydroxyl-group. Boron as a pentavalent element. 32.

BORNEO (Description de crustacés décapodes nouveaux des terrains tertiaires de). 489.

— Description de Raniniens nouveaux des terrains tertiaires de). 777.

BORON as a pentavalent element. 32.

— (The valency of). 97.

BOSCHMA (H.). Experimental budding in Fungia fungites. 88.

Botany. J. M. JANSE: "On stimulation in auxotonic movements". 171.

— J. P. BANNIER: "Cytological investigations on apogamy in some elementary species of Erophila verna". 349.

— F. W. T. HUNGER: "On the nature and origin of the cocos-pearl." 357.

— TH. VALETON: "The genus Coptosapelta KORTH. (Rubiaceae)". 361.

— D. TOLLENAAR: "Dark growth-responses". 378.

— D. S. FERNANDES: "A method of simultaneously studying the absorption of O_2 and the discharge of CO_2 in respiration". 408.

— TH. WEEVERS: "Ringing experiments with variegated branches". 755.

BRAIN (Contributions to the knowledge of the) of bony fishes. 65.

BRANCHES (Ringing experiments with variegated). 756.

BREIT (G.). Transients of magnetic field in supra-conductors. 529.

— and H. KAMERLINGH ONNES. Magnetic researches. XXVI. Measurements of magnetic permeabilities of chromium chloride and gadolinium sulphate at the boiling point of liquid hydrogen in alternating fields of frequency 369,000 per second. 840.

BRINKMAN (R.) and A. v. SZENT-GYÖRGYI. Researches on the chemical causes of normal and pathological haemolysis. 470.

BROUWER (H. A.). Fractures and faults near the surface of moving geanticlines. III. The horizontal movement of the Central-Atlantic ridge. 167.

— and L. F. DE BEAUFORT. On tertiary marine deposits with fossil fishes from South Celebes. 159.

BROUWER (L. E. J.). Ueber den natürlichen Dimensionsbegriff. 795.
BUDDING (Experimental) in Fungia fungites. 88.
BURGERS (J. M.). On the resistance experienced by a fluid in turbulent motion. 582.
CAESIUM (Is) radio-active? 575.
CARBON (Researches on the nature of the so-called adsorptive power of finely-divided). I. The binding of water by animal carbon. 548.
CARBONIFEROUS (Etapteris Bertrandi Scott, a new etapteris from the upper) (lower coalmeasures) from England, and its bearing to stelar-morphological questions. 669.
CARDIO-REGULATIVE NERVES (The presence of) in Petromyzon fluviatilis. 438.
CENTRAL-ATLANTIC RIDGE (The horizontal movement of the). 167.
CHEMICAL CAUSES (Researches on the) of normal and pathological haemolysis. 470.
Chemistry. P. H. HERMANS: "Provisional communication on boric acid compounds of some organic substances containing more than one hydroxyl-group. Boron as a pentavalent element". 32.
— H. R. KRUYT and W. A. N. EGGINK: "The electro-viscous effect in rubbersol". 43.
— H. J. BACKER and J. H. DE BOER: "n. α-Sulfobutyric acid and its optically active components". 79.
— H. J. BACKER: "The second dissociation constant of sulphoacetic and α-sulphopropionic acids". 83.
— J. BÖESEKEN: "The valency of boron". 97.
— H. I. WATERMAN and J. N. J. PERQUIN: "Hydrogenation of paraffin by the BERGIUS' method". 226.
— A. SMITS: "The phenomenon of electrical supertension". III. 259.
— A. SMITS: "The influence of intensive drying on internal conversion". I. 266.
— A. SMITS: "The system sulphur trioxide". I. 270.
— F. A. H. SCHREINEMAKERS: "In-, mono- and divariant equilibria". XXIII. 283.
— J. P. WIBAUT and J. J. DIEKMANN: "Researches on the additon of water to ethylene and propylene." 321.
— A. SMITS: "The electromotive behaviour of magnesium." II. 395.
— J. P. WIBAUT and Miss E. DINGEMANSE: "The synthesis of some pyridylpyrroles". 426.
— W. D. COHEN: "The light oxidation of alcohol. III. The photo-catalytic influence of some series of ketones on the light oxidation of ethyl alcohol". 443.
— L. HAMBURGER: "Nitrogen fixation by means of the cyanide-process and atomic structure". 480.

Chemistry. J. LIFSCHITZ: "Volta-luminescence". 561.

— O. DE VRIES: "The coagulation of Hevea latex". 675.

— F. A. H. SCHREINEMAKERS: "In-, mono- and divariant equilibria". XXIV. 719.

CHROMIUM CHLORIDE (Measurements of magnetic permeabilities of) and gadolinium sulphate at the boiling point of liquid hydrogen in alternating fields of frequency 369.000 per second. 840.

CILIATED CELL (On the determination of polarity in the epidermal). (After experiments on amphibian larvae). 702.

CILIATED EPITHELIUM (A contribution to the histophysiology of the). 707.

CITRATE (Further researches on the antagonism between) and calcium salt in biochemical processes, examined by the aid of substituted citrates. (First comm.). 542.

COAGULATION (The) of Hevea latex. 675.

COCOS-PEARL (On the nature and origin of the). 357.

COHEN (W. D.). The light oxidation of alcohol. III. The photo-catalytic influence of some series of ketones on the light oxidation of ethyl alcohol. 443.

Colloidchemistry. J. R. KATZ: "Researches on the nature of the so-called adsorptive power of finely-divided carbon. I. The binding of water by animal carbon". 548.

COMPONENTS (n. α-Sulfobutyric acid and its optically active). 79.

CONGRUENCE (1.0) (A) of twisted cubics. 126.

CONGRUENCE OF RAYS (On the plane pencils containing three straight lines of a given algebraical"). 522.

CONICS (The complex of the) which cut five given straight lines. 513.

CONSTANT (On EULER's). 316.

CONTINUITY (On the points of) of functions. 187.

COPTOSAPELTA KORTH (Rubiaceae) (The genus). 361.

CORPUS STRIATUM (The ontogenetic development of the) in birds and a comparison with mammals and man. 135.

CRUSTACÉS DÉCAPODES NOUVEAUX (Description de) des terrains tertiaires de Borneo. 489.

CURRENTS (On the influence of the vagi on the frequency of the action) of the diaphragm during its respiratory movements. 771.

CURVE (The critical) of oxygen-nitrogen mixtures, the critical phenomena and some isotherms of two mixtures with 50 % and 75 % by volume of oxygen in the neighbourhood of the critical point. 49.

— (An application of the theory of integral equations on the determination of the elastic) of a beam, elastically supported on its whole length. 237, 247.

CYANIDE-PROCESS (Nitrogen fixation by means of the) and atomic-structure. 480.

CYTOLOGICAL INVESTIGATIONS on apogamy in some elementary species of Erophila verna. 349.

DARKGROWTH-RESPONSES. 378.

DÉCAPODES (Description de crustacés) nouveaux des terrains tertiaires de Borneo. 489.

DEPOSITS (On tertiary marine) with fossil fishes from South Celebes. 159.

DIAMOND (On the occurrence of) as an accessory mineral in olivine and anorthite bearing bombs, occurring in basaltic lava, ejected by the volcano Gunung Ruang (Sangir-Archipelago north of Celebes). 510.

DIAPHRAGM (On the influence of the vagi on the frequency of the action currents of the) during its respiratory movements. 771.

DIEKMANN (J. J.) and J. P. WIBAUT. Researches on the addition of water to ethylene and propylene. (Preliminary communication). 321.

DIK (H. W. J.) and P. ZEEMAN. A relation between the spectra of ionized potassium and argon. (Second comm.). 498.

DIMENSIONSBEGRIFF (Ueber den natürlichen). 795.

DINGEMANSE (ELIS'ABETH) and J. P. WIBAUT. The synthesis of some pyridylpyrroles. 426.

DIRICHLET's series (A theorem concerning power-series in an infinite number of variables, with an application to). 278.

DISPERSION LINES (The relation between the widening and the mutual influence of) in the spectrum of the sun's limb. 329.

DISSOCIATION CONSTANT (The second) of sulphoacetic and α-sulphopropionic acids. 83.

DOORMANTOP (On the rocks of) in Central New Guinea. 191.

DROSTE (J.). An application of the theory of integral equations on the determination of the elastic curve of a beam, elastically supported on its whole length. 247.

DRYING (The influence of intensive) on internal conversion. I. 266.

DUSSER DE BARENNE (J. G.) v. BARENNE (J. G. DUSSER DE).

DIJKSTRA (O. H). The development of the shoulder-blade in man. 297.

EGGINK (W. A. N.) and H. R. KRUYT. The electro-viscous effect in rubbersol. 43.

EINTHOVEN (W. F.). The string galvanometer in wireless telegraphy. 635.

ELASTIC CURVE (An application of the theory of integral equations on the determination of the) of a beam, elastically supported on its whole length. 237. 247.

ELECTRIC RESISTANCE (On the) of pure metals, etc. XII. Measurements concerning the electric resistance of indium in the temperature field of liquid helium. 504.

ELECTROMOTIVE BEHAVIOUR (The) of magnesium. II. 395.

ELECTRO-VISCOUS EFFECT (The) in rubbersol. 43.

EMBRYO (Thymus, spiracular sense organ and fenestra vestibuli (ovalis) in a 63 m. m. long) of Heptanchus cinereus. 727.

EPISTERNUM (On the development of the shoulder-girdle and) in reptiles. 15.

EQUILIBRIA (In-, mono- and divariant). XXIII. 283, XXIV. 719.

EROPHILA VERNA (Cytological investigations on apogamy in some elementary species of). 349.

ETAPTERIS BERTRANDI SCOTT, a new etapteris from the upper carboniferous (lower coal-measures) from England, and its bearing to stelar-morphological questions. 669.

ETHYL ALCOHOL (The photo-catalytic influence of some series of ketones on the light oxidation of). 443.

ETHYLENE (Researches on the addition of water to) and propylene. 321.

EULER's constant (On). 316.

FAULTS (Fractures and) near the surface of moving geanticlines. III. The horizontal movement of the Central-Atlantic ridge. 167.

FAUNA (On the) of the phosphatic deposits in Twente (Lower oligocene). 235.

FERNANDES (D. S.). A method of simultaneously studying the absorption of O_2 and the discharge of CO_2 in respiratiton. 408.

FIELD THEORY (On a non-symmetrical affine). 850.

FISHES (On tertiary marine deposits with fossil) from South Celebes. 159.

FLIERINGA (H. J.) and J. VAN DER HOEVE. Determination of the power of the accommodation-muscle. 763.

FLU (P. C.). On the bacteriophage and the self-purification of water. 116.

FLUID (On the resistance experienced by a) in turbulent motion. 582.

FOETUS (A partial) removed from a child. 493.

FOREBRAIN (The) of Apteryx Australis. 807.

FRACTURES and faults near the surface of moving geanticlines. III. The horizontal movement of the Central-Atlantic ridge. 167.

FUNCTIONS (On the points of continuity of). 187.

FUNGIA FUNGITES (Experimental budding in). 88.

GADOLINIUM SULPHATE (On the determination of the magnetisation at very low temperatures and on the susceptibility of) in the region of tempe ratures obtainable with liquid hydrogen. 613.

— (On the magnetisation of) at temperatures obtainable with liquid helium. 626.

— (Measurements of magnetic permeabilities of chromium chloride and) at the boiling point of liquid hydrogen in alternating fields of frequency 369.000 per second. 840.

GALVANOMETER (The string) in wireless telegraphy. 635.

GASTEROSTEUS PUNGITIUS L. (Secondary sex-characters and testis of the ten-spined stickleback). 309.

GEANTICLINES (Fractures and faults near the surface of moving). III. The horizontal movement of the Central-Atlantic ridge. 167.

GELDEREN (CHR. VAN). On the development of the shoulder-girdle and episternum in reptiles. 15.

GEOLOGICAL DATA derived from the region of the "Bird's head" of New-Guinea. 274.

Geology. H. A. BROUWER and L. F. DE BEAUFORT: "On tertiary marine deposits with fossil fishes from South Celebes". 159.

— H. A. BROUWER: "Fractures and faults near the surface of moving geanticlines. III. The horizontal movement of the Central-Atlantic ridge". 167.

— L. RUTTEN: "Geological data derived from the region of the "Bird's head" of New-Guinea". 274.

— V. VAN STRAELEN: "Description de crustacés décapodes nouveaux des terrains tertiaires de Borneo". 489.

— W. F. GISOLF: "On the occurrence of diamond as an accessory mineral in olivine and anorthite bearing bombs, occurring in basaltic lava, ejected by the volcano Gunung Ruang (Sangir-Archipelago north of Celebes)". 510.

— V. VAN STRAELEN: "Description de raniniens nouveaux des terrains tertiaires de Borneo". 777.

GISOLF (W. F.). On the rocks of Doormantop in Central New-Guinea. 191.

— On the occurrence of diamond as an accessory mineral in olivine and anorthite bearing bombs, occurring in basaltic lava, ejected by the volcano Gunung Ruang (Sangir-Archipelago north of Celebes). 510.

GROWTH-RESPONSES (Dark). 378.

GUNUNG RUANG (Sangir-Archipelago north of Celebes). (On the occurrence of diamond as an accessory mineral in olivine and anorthite bearing bombs, occurring in basaltic lava, ejected bij the volcano). 510.

HAEMOLYSIS (Researches on the chemical causes of normal and pathological). 470.

HAMBURGER (H. J.). A new form of correlation between organs. 420.

HAMBURGER (L.). Nitrogen fixation by means of the cyanide-process and atomic structure. 480.

HAZELHOFF (F. F.) and Miss HELEEN WIERSMA. On subjective rhythmisation. 462.

HELIUM (Further experiments with liquid). S. On the electric resistance of pure metals, etc. XII. Measurements concerning the electric resistance of indium in the temperature field of liquid helium). 504.

HELIUM (Further experiments with liquid). T. Magnetic researches. XXIII. On the magnetisation of gadolinium sulphate at temperatures obtainable with liquid helium. 626.

HEPTANCHUS CINEREUS (Thymus, spiracular sense organ and fenestra vestibuli (ovalis) in a 63 m. m. long embryo of). 727.

HERELLE (F. d.'). Culture du bactériophage sans intervention de bactéries vivantes. 486.

HERMANS (P. H.). Provisional communication on boric acid compounds of some organic substances containing more than one hydroxyl-group. Boron as a pentavalent element. 32.

HERTZSPRUNG (E.). On the magnitude equation of OSTHOFF's estimates of star-coulours. 12.

HEVEA LATEX (The coagulation of). 675.

Histology. M. W. WOERDEMAN: "On the determination of polarity in the epidermal ciliated cell (after experiments on amphibian larvae)". 702.

— M. W. WOERDEMAN: "A contribution to the histophysiology of the ciliated epithelium". 707.

— E. WINKLER-JUNIUS and J. A. LATUMETEN: "The histopathology of Lyssa in respect to the propagation of the lyssavirus". 825.

HOEVE (J. VAN DER) and H. J. FLIERINGA. Determination of the power of the accommodation-muscle. 763.

HUNGER (F. W. T.). On the nature and origin of the cocos-pearl. 357.

HUNTER (JOHN I.). The forebrain of apteryx Australis. 807.

Hydrodynamics. J. M. BURGERS: "On the resistance experienced by a fluid in turbulent motion". 582.

HYDROGEN (On the determination of the magnetisation at very low temperatures and on the susceptibility of gadolinium sulphate in the region of temperatures obtainable with liquid). 613.

HYDROGENATION of paraffin by the BERGIUS' method. 226.

HYDROXYL-GROUP (Provisional communication on boric acid compounds of some organic substances containing more than one). Boron as a pentavalent element. 32.

HYPERBOLOID (A representation of the line elements of a plane on the tangents of a). 129.

INDIUM (Measurements concerning the electric resistance of) in the temperature field of liquid helium. 504.

INFRALATERAL ARC (A non-tangent). 712.

INSECTES (Sur quelques nouveaux) des lignites oligocènes (Aquitanien) de Rott. Siebengebirge (Rhénanie). 605.

INTEGRAL EQUATIONS (An application of the theory of) on the determination of the elastic curve of a beam, elastically supported on its whole length. 237. 247.

INTENSIVE DRYING (The influence of) on internal conversion. I. 266.

INVARIANTEN (Ueber) von Bilinearformen. 801.

ISOTHERMS of di-atomic substances and their binary mixtures. XX. The critical curve of oxygen-nitrogen mixtures, the critical phenomena and some isotherms of two mixtures with 50 % and 75 % by volume of oxygen in the neighbourhood of the critical point. 49.

JANSE (J. M.). On stimulation in auxotonic movements. 171.

JULIUS (W. H.) and M. MINNAERT. The relation between the widening and the mutual influence of dispersion lines in the spectrum of the sun's limb. 329.

KAISER (MISS L.). Contributions to an experimental phonetic investigation of the Dutch language. I. The short o. 745.

KAMERLINGH ONNES (H.) v. ONNES (H. KAMERLINGH).

KAPPERS (C. U. ARIËNS). The ontogenetic development of the corpus striatum in birds and a comparison with mammals and man. 135.

KATZ (J. R.). Further researches on the antagonism between citrate and calcium salt in biochemical processes examined by the aid of substituted citrates. (First comm.) 542.

— Researches on the nature of the so-called adsorptive power of finely divided carbon. I. The binding of water by animal carbon. 548.

KEESOM (W. H.) and J. DE SMEDT. On the diffraction of Röntgen-rays in liquids. II. 112.

KETONES (The photo-catalytic influence of some series of) on the light oxidation of ethyl alcohol. 443.

KLOOSTERMAN (H. D.). A theorem concerning power-series in an infinite number of variables, with an application to DIRICHLET's series. 278.

KLUYVER (J. C.). On EULER's constant. 316.

KÖLMEL (F.). Ueber die zu einem Punkte und einer Geraden gehörigen Polarkurven inbezug auf eine gegebene algebraische Kurve. 783.

KOMITANTENSYSTEM (Ueber das) zweier und dreier ternärer quadratischer Formen. 2.

KRAAY (G. M.) and L. K. WOLFF. The splitting of lipoids by bacteria. I. 436.

KRUYT (H. R.) and W. A. N. EGGINK. The electro-viscous effect in rubber-sol. 43.

KUDO (KYOZO). Contributions to the knowledge of the brain of bony fishes. 65.

KUENEN (J. P.), T. VERSCHOYLE and A. TH. VAN URK. Isotherms of di-atomic substances and their binary mixtures. XX. The critical curve of oxygen-nitrogen mixtures, the critical phenomena and some isotherms of two mixtures with 50 % and 75 % by volume of oxygen in the neighbourhood of the critical point. 49.

KURVE (Ueber die zu einem Punkte und einer Geraden gehörigen Polarkurven inbezug auf eine gegebene algebraische). 783.

LANGUAGE (Contributions to an experimental phonetic investigation of the Dutch). I. The short o. 745.

LATUMETEN (J. A.) and E. WINKLER-JUNIUS. The histopathology of Lyssa in respect to the propagation of the lyssavirus. 825.

LAVA (On the occurrence of diamond as an accessory mineral in olivine and anorthite bearing bombs, occurring in basaltic), ejected by the volcano Gunung Ruang (Sangir-Archipelago north of Celebes). 510.

LIFSCHITZ (J.). Volta-luminescence. 561.

LIGHT OXIDATION (The) of alcohol. III. The photocatalytic influence of some series of ketones on the light oxidation of ethyl alcohol. 443.

LIMITING SETS (Inner). 189.

LINE ELEMENTS (A representation of the) of a plane on the tangents of a hyperboloid. 129.

LIPOIDS (The splitting of) by bacteria. I. 436.

LIQUIDS (On the diffraction of Röntgen-rays in). II. 112.

LYSSA (The histopathology of) in respect to the propagation of the lyssavirus. 825.

MAGNESIUM (The electromotive behaviour of). II. 395.

MAGNETIC FIELD (Transients of) in supra-conductors. 529.

MAGNETIC RESEARCHES. XXII. On the determination of the magnetisation at very low temperatures and on the susceptibility of gadolinium sulphate in the region of temperatures obtainable with liquid hydrogen. 613.

— XXIII. On the magnetisation of gadolinium sulphate at temperatures obtainable with liquid helium. 626.

— XXVI. Measurements of magnetic permeabilities of chromium chloride and gadolinium sulphate at the boiling point of liquid hydrogen in alternating fields of frequency 369.000 per second. 840.

MAGNITUDE EQUATION (On the) of OSTHOFF's estimates of star-colours. 12.

MAMMALS (The ontogenetic development of the corpus striatum in birds and a comparison with) and man. 135.

— (New findings of pliocene and pleistocene) in Noord Brabant, and their geological significance. 199.

Mathematics. B. L. VAN DER WAERDEN: "Ueber das Komitantensystem zweier und dreier ternärer quadratischer Formen". 2.

— JAN DE VRIES: "A null system (1, 2, 3)". 124.

— JAN DE VRIES: "A congruence (1,0) of twisted cubics". 126.

— JAN DE VRIES: "A representation of the line elements of a plane on the tangents of a hyperboloid." 129.

— J. WOLFF: "On the points of continuity of functions". 187.

— J. WOLFF: "Inner limiting sets." 189.

— M. J. BELINFANTE: "A generalisation of MERTENS' theorem". 203.

Mathematics. M. J. BELINFANTE: "On a generalisation of TAUBER's theorem concerning power series". 216.
